

# HAYMAKING DIVISION

## Disc Mower

# SDN 210

SDN 210 Mower has 5 oval cutting discs, with 2 knives on each disc. Designed to produce a precise cut without harming the plant which allows a faster regrowth. Each disc has a left and a right knife that can be used on both sides.

It is an ideal equipment for cutting and producing hay or silage of haylage with a cut width of 2.10 m. SDN 210 discs have been developed in such a way that in contact with stones or something similar does not suffer breakages.

In addition, this machine was developed in a way that the product that is being cut is easily thrown back leaving a cleaner ground.

### Technical Characteristics

Production	till 25 ha/h
Required power at PTO	35 hp
Cutting width	2,1 m
Number of discs	5
Number of knives	10 (2 per disc)
Rotation of discs	2800 RPM
Power source	Tractor PTO
Weight	432 kg
