

PTO-Driven Livestock Division

Forage harvester

FTN 1600

- Row-independent and multi-forage harvesting with 1,6m working width;
- Powerful rotor with 15 blades; cut and throw action in a single operation;
- Frame designed for side, front or rear harvesting, allowing opening of fields as well as easier harvesting in small plots and edges;
- Direct drive transmission system without belt/chain for taking better advantage of tractor power and easier maintenance;
- Fully articulated frame and 2 support wheels with hydraulic adjustment allows harvesting in uneven terrains without damaging the equipment frame and relieves tension on tractor 3-point linkage;

Technical Characteristics

Production	till 50 t/h
Cut sizes	18 (from 2,5 to 43 mm)
Number of rotor	1
Number of drums	2
Number of blades	15
Nuber of saws	2
Number of gathering drums	4
Power source	tractor PTO
Required power at PTO	from 80 to 140 hp
Required revolution at PTO	540 or 1000 RPM (optional)
Transmission system	gearbox
Working width	1,6 m
Weight	2150 kg
